

WHAT WILL HAPPEN?

Your health visitor will contact you via letter to invite you to a meeting to review your child's health and development at the age of 2 to two and a half years old. They will also send you a questionnaire to complete ready for the meeting.

WHY REVIEW PROGRESS AT 2 YEARS OLD?

A good start in life gives a child the best foundation for their future. Knowing your child's strengths, progress and individual needs at 2 allows us to provide all the support and guidance necessary to:

- promote health and wellbeing
- help prepare your child for their future and;
- make sure they are ready for school.

WHY A JOINT REVIEW?

Combining information from your child's health review with their Early Years Foundation Stage progress check (completed by your childcare provider), means that a better picture of your child's strengths, progress and needs can be gained.
